

BANELE INNOCENT MONAMUDI

Cybersecurity | IT Support Technician | Junior Network Technician

Brakpan, Gauteng, South Africa

063 554 5406 | monamudi.banele9@gmail.com

Willing to Relocate

PROFESSIONAL SUMMARY

Motivated and detail-driven IT Support Technician with hands-on experience in desktop support, network administration, and foundational cybersecurity operations. Strong passion for cybersecurity, digital forensics, and information security monitoring.

Experienced in Windows system administration, Active Directory management, endpoint security, and network troubleshooting in enterprise and educational environments.

Actively pursuing a career in cybersecurity with strong interest in threat detection, security operations (SOC), and risk analysis. Seeking a 12-month Cybersecurity Learnership to gain practical exposure in real-world security environments and develop into a skilled entry-level cybersecurity professional.

CORE STRENGTHS & SKILLS

Cybersecurity Focus

- Cybersecurity fundamentals and awareness
- Threat detection and incident reporting
- Endpoint security and antivirus management
- Network security principles
- Security operations (SOC awareness)
- vulnerability awareness

Networking

- LAN/WAN troubleshooting
- DNS and DHCP configuration
- Active Directory user and permission management
- Network infrastructure support
- Structured cabling and deployment assistance

IT Support & Systems

- Windows OS installation, configuration, and hardening
- Desktop and hardware troubleshooting
- Office 365 administration
- Remote and onsite technical support
- IT asset tracking and documentation

Professional Skills

- Strong analytical and problem-solving ability
 - Fast learner with adaptability to new technologies
 - Attention to detail in technical environments
-

PROFESSIONAL EXPERIENCE

IT Technician (Work-Based Experience Internship)

Ekurhuleni East TVET College

Jan 2024 – Aug 2025

- Provided first- and second-line IT technical support to staff and students
 - Installed, configured, and secured Windows operating systems
 - Managed Active Directory accounts, permissions, and password policies
 - Supported network troubleshooting including DNS and DHCP resolution
 - Assisted in endpoint security and antivirus monitoring
 - Investigated and documented system and network incidents
 - Assisted with backup verification and basic recovery procedures
 - Contributed to infrastructure upgrades and system maintenance
 - Maintained IT documentation, logs, and asset registers
-

PROJECT EXPERIENCE

Secure Academic Network Implementation

- Designed and supported deployment of secure LAN and Wi-Fi environment
- Assisted in applying firewall rules and access control policies
- Strengthened practical understanding of cybersecurity best practices

Campus Network Infrastructure Upgrade

- Installed and configured network switches for 60+ workstations
 - Assisted with structured cabling and network expansion
 - Supported stable and secure connectivity improvements
-

EDUCATION

NCV Information Technology & Computer Science (NQF Level 2–4)

Ekurhuleni East TVET College

Matric (Grade 12)

Tandi Eleanor Sibeko Secondary School

CERTIFICATIONS & TRAINING

- Cisco CCNA – Introduction to Networks
- Cisco IT Essentials (Hardware & Software)
- Cisco Introduction to Cybersecurity
- Ethical Hacking (In Progress)

KEY ATTRIBUTES FOR LEARNERSHIP

- Strong interest in cybersecurity and digital defense systems
- High willingness to learn new security technologies
- Ability to follow structured security procedures
- Strong workplace discipline and professional conduct
- Motivated to grow into SOC Analyst / Cybersecurity Technician role

ADDITIONAL INFORMATION

- South African Citizen
- Currently Unemployed
- Willing to relocate (including Western Cape)
- Highly interested in Cyber Threat Intelligence and Security Operations
